

3M™ MARKERS & LOCATORS

Precision Accuracy In
All Field Conditions

Proven Technology
since 1980s

At **BYTEWORX**, we constantly endeavour to provide a seamless experience to our clients in the most progressive and technologically viable way possible. Since inception in the year 2014, we are expanding with each passing day in terms of gamut of services & solutions we offer, cost-effective solutions, via research & development of technically superior products. Our teams consists of industry experts holding vast experience and technical know-how of successfully undertaking large-scale projects.

Pinpoint Accuracy
Detect buried
utilities up to 9 ft

GPS & Wifi Enabled
Track Everything, Anywhere

Caters to all Utilities
Power, Telecom, Gas,
Oil & more

Maintenance-Free
No batteries, works in
all soil & weather

Built Tough
Corrosion-resistant,
long-life reliability

Marker Burial Depth Chart

Save time and money by quickly pinpointing the location of buried assets with 3M™ Point and Path Markers and our Electronic Marking System (EMS) technology. Designed to be placed in various ranges of burial depths, our markers protect your critical assets wherever they are.

Note: Burial depths are approximate. Review the marker specification sheet and locator compatibility for precise indication of burial depth for each of the marker models.

Path Markers

LATEST

A maintenance-free solution for marking and locating

3M™ Electronic Marking System (EMS) Warning Tape 7900 Series and 3M™ EMS Caution Tape 7900 Series provide a virtually maintenance-free solution for marking and locating the path of underground plastic pipes and conduits. Together, they help eliminate problems and costs associated with tracer wire and test stations.

The 3M™ EMS Warning Tape 7900 Series and 3M™ EMS Caution Tape 7900 Series are both embedded with markers that are activated using the 3M™ Dynatel™ Locators 7000 Series. The EMS Warning Tape 7900 Series also includes an additional high strength core material feature called extreme tensile (XT) which provides an early warning for excavators **that an underground asset is below.**

- Can be installed near or above buried assets
 - Easy to follow, creating a detectable path above ground
 - For use in open trench applications
 - Does not require batteries and there's no need to hook up an external transmitter or spend time searching for access points
- The markers work independently, so even if a section of path marking tape is cut or removed, the other markers on the tape will continue to provide an accurate location
 - Come in 5 or 6 frequencies, creating a unique identification for each utility type

CAUTION WASTE WATER LINE BURIED BELOW

The optimal depth for the XT early warning system is < 2 ft (60 cm) while the embedded EMS markers are locatable < 4 ft (1.2 m).
XT – Extreme Tensile, EMS – Electronic Marker System

Point Markers

Marking points of interest

Unlike surface features, maps and other methods of recording position, our Point Markers are a point of reference you can depend on.

- 3M Non-iD Markers:**

 - Operate in all soil types; under asphalt, cement, and wet or dry soil
 - Provide easy positive identification with each utility having its own frequency
 - Color-coded to APWA standards
- 3M iD Markers can be customized to include customer-specific information:**

 - Facility data
 - Material type and size
 - Type of application
 - Placement date

Access all of this information in the field through a 3M™ Dynatel™ ID capable locator, or by uploading and using with your GIS system.

3M™ EMS Near Surface Marker
Ideal for marking at shallow depths of 2–3'

3M™ EMS and iD Ball Marker
Self-leveling feature, suited for depths of 5–6'

3M™ EMS Mini-Marker
Designed for maintaining a stable position after placement at depths of 6'

3M™ EMS Full-Range Marker
Suited for deep applications of up to 8–9'

3M™ EMS Disk Marker
Ideal for marking at shallow depths of 3–5'

Dynatel™ Locator Selection Chart

The numbers above reference Dynatel Locator models.
Some kits have 3 or 12 W transmitters. 12 W transmitters can be useful with locates that have a weak signal. To pick specific kits please refer to the locator kit ordering information starting on page 18.

Our latest innovation, the Dynatel X Series Locators are best in class, allowing you to quickly locate underground assets. They are equipped with Bluetooth® wireless technology receivers, which none of our other locators have, along with improved software and GPS capabilities.

- Receiver with Bluetooth® wireless technology
- Integrated USB port is compatible with USB Type-C connector
- Internal GPS can be saved internally or directly to a memory stick compatible with USB Type-C connector
- RFID Marker write/read/locate capabilities
- EMS Path Marking Antennas
- Multiple EMS antennas for maximum locate capabilities
- Large LCD display with image-driven graphical interface
- Integrated tone functions
- Dynatel Locators 2573X and 7573X include fault locating
- 12 W transmitter

Dynatel™ Locators 7550/7553 Series

Electronic Marking System (EMS)/ID/Marker/ Path/Cable/Pipe Locator 7550

EMS/ID/Marker/Path/Cable/Pipe/Fault Locator 7573-ID

Choose the Dynatel Locators 7500 Series for powerful, precision locating. These locators combine advanced digital processing and simple interfaces to help you locate 3M™ Path Markers as well as existing electronic markers. As with all 3M™ Dynatel™ ID Capable Locators, the 7500 series provides accurate pipe, cable, or sonde depth measurements, giving a digital readout in feet and inches, or centimeters (user-selectable).

- 6 active frequencies for direct connect and transmitter output options in 3, 5 or 12 watts
- 4 induction frequencies with maximum allowed output power
- Trace view mapping display
- Push-button depth to all underground markers (passive and ID)
- Receiver rechargeable battery kit
- All frequency mode in direct connect (4 simultaneously)
- Automatic impedance matching
- Ohm meter with high-voltage detection
- Rugged, industrial temperature range
- 240VAC output protection
- Reads and writes to 3M ID Markers

3M™ Dynatel™ Locator and Transmitter 7573-ID

Dynatel™ Locator

2200M and 2500 Series

Electronic Marking System (EMS) /ID/Marker/Cable/Pipe Locators 2250M-ID, 2550-ID

Cable/Pipe Locators 2250M, 2550

EMS/ID/Marker/Cable/Pipe/Fault Locators 2273M-ID, 2573-ID

Cable/Pipe/Fault Locators 2273M, 2573

Offering a broad feature set with advanced digital processing, the Dynatel Locators 2200M and 2500 Series combine simple interfaces with precision locating capabilities. In addition to the 2200M capabilities, the 2500 presents two extra frequencies along with a trace view mode that provides an intuitive user interface that graphs the position and direction of the utility being located.

3M™ Dynatel™ Locators
2200 Series

3M™ Dynatel™ Locators
2500 Series

- 5 locating modes featuring highly accurate peak mode based on peak antenna response
- 6 active frequencies (see chart on page 7 for additional details)
- Transmitter has 3, 5 and 12 W (maximum) power output options
- Electronic marker locate/read/write and alert mode option seamlessly integrated into one unit
- GPS communication capability for GIS mapping of pipe/cable path and electronic markers

3M™ Dynatel™ Locator and Transmitter 2200 with 3M™ Earth Contact Frame

Dynatel™ Locators 2200 Series

Cable/Pipe Locator 2250

Cable/Pipe/Fault Locator 2273

The Dynatel Locators 2200 Series are built specifically to find the path and estimated depth of buried cables and pipes. They also offer toning of aerial cable, direct readout of active duct probe and cable/pair identification.

Receivers have an “expander” function which differentiates between two conductors carrying the same tone by enhancing the amplitude difference. Both the receiver and the transmitter also feature a self-test that runs each time the unit is turned on.

3M™ Dynatel™ Locator and Transmitter 2250/2273

Dynatel Locators 2200 Series have four active frequencies:

- Passive frequencies (for power)
- Cathodic protection
- CATV
- Auxiliary frequencies (or long distance locating from remote transmitters)

Other features include:

- Three locating modes: Peak, Null and Differential
- All frequency mode in direct connection (4 frequencies simultaneously)
- Transmitter has 3 and 5 W output options
- Ability to find underground faults

Dynatel™ Marker Locator 1420

Electronic Marking System (EMS) /ID/Marker Locator 1420-ID

The Dynatel Marker Locator 1420 is a high-performance locator that quickly and efficiently estimates the exact location of all underground markers. This locator can simultaneously locate two marker frequencies.

- Detects industry-standard electronic marker frequencies
- 3M iD Marker read/write capability and depth estimation
- Marker maximum read range up to 8 ft (2.4 m) depth
- GPS communication capability for GIS mapping of pipe/cable path and electronic markers
- Light weight with excellent balance and ergonomics
- Large, backlit high-resolution graphic display

3M™ Dynatel™ Marker Locator 1420-ID

Dynatel™ Locator 7420

Electronic Marking System (EMS) /ID/Marker/Path Locator 7420-ID

The Dynatel Locator 7420 is a high-performance locator that quickly and efficiently locates 3M™ Path Markers as well as existing electronic markers.

- Locate all frequencies of 3M™ Path Marking Tape
- Detects industry-standard electronic marker frequencies
- 3M iD marker read and write capability
- Locate 3M Path Markers and be alerted to electronic marker of same frequency
- Marker maximum read range up to 9 ft (2.4 m) depth
- GPS communication capability for GIS mapping of pipe/cable path and electronic markers
- Push-button depth estimation for 3M iD markers and 3M Path Markers
- Large, backlit high-resolution graphic display
- Rechargeable battery kit

3M™ Dynatel™ Locator 7420

Locating and Marking Accessories

78-9000-5055-6

3M™ Assembly Harness Alkaline Battery Pack With Diode

Used to connect Alkaline batteries to locators.

7000027975

3M™ Ribbed Battery Compartment Cap With Liner For Dynatel™ M-Series Cable/Pipe Locators

The cap screws onto the locator handle to help protect the battery.

26-1022-0044-6

3M™ Dynatel™ Locators USB Cord, Type-C Male to Male, 6 ft

USB Type-C® cable to connect an X-Series locator to a PC.

26-1021-9989-5

3M™ Dynatel™ Locators USB Type-C Li-Ion Battery Charger

USB Type-C® charger for the Li-Ion battery in locator.

78-9000-0087-4

3M™ USB Cord For 2200M/2500 Series and 1420, 1 Kit

USB to RS-232 cable to connect an M-Series, 2500 Series, 7000 Series or 1420 locator to a PC.

26-1022-0046-1

3M™ Dynatel™ Locators USB Type-C Audio Adapter, 3.5 mm Female

USB Type-C® 3.5 mm adapter to connect headphones.

78-9000-0242-5

3M™ Dynatel™ Locators Extra Large Direct Connect Clips

Extra large clips to be used with large connection points.

Locating and Marking Accessories

7000058654

3M™ 6" (15.2 cm) Dyna-Coupler with Pouch

Permits coupling of RF trace tone to large diameter cables, bundle cables, and cables enclosed in accessible non-metallic ducts. For use on cables and conduits with a maximum diameter of 6.9" (17.5 cm).

7000057745

3M™ Small Clip 1/4 " (6.4 mm) Direct Connect, 5-foot Transmitter Cable, Telephone

Two-lead, 5' (1.5 m) cables used for direct connection to conductor and ground. The 9012 cable has smaller Telco style alligator clips with an insulation piercing needle incorporated.

7000058141

3M™ Small Clip 1/4" (6.4 mm) Direct-Connect Transmitter Cable For All Cable/Fault Locators

Two-lead, 10' (3 m) cable used for direct connection to cable and ground.

7000058140

3M™ Large Clip 5/8" (15.9 mm) Direct-Connect Transmitter Cable

Two-lead, 10' (3 m) cable used for direct connection to cable and ground.

7000043006

3M™ Ground Extension Cable

Extends ground capability to 12' (3.7 m).

7000031431

3M™ Earth Contact Frame

Used only when locating sheath (earth return) faults. It indicates direction to the fault and is color coded to correspond with the Receiver's indicator.

7000031433

3M™ Earth Contact Frame Cable

For use with the 3M™ Earth Contact Frame 3014 for sheath (earth return) fault location; 4' (1.2 m) in length.

Locating and Marking Accessories

7000057820

3M™ Ground Rod
For applying ground capability, made of stainless steel.

7010321054

3M™ AC Charger
For use with 3M™ Dynatel™ 7000 and 2500 Series Locators.

7000058653

3M™ Rechargeable Battery
For use with 5 W and 12 W transmitters (non-spillable).

7000058906

3M™ Rechargeable Battery Pack
For use with 3M™ Dynatel™ 7000 and 2500 Series Receiver.

7000057744

3M™ 3" (7.6 cm) Dyna-Coupler
Permits coupling of RF trace tone to cables with a maximum diameter of 3" (7.6 cm).

7000031716

3M™ 4.5" (11.4 cm) Dyna-Coupler
Permits coupling of RF trace tone to cables with a maximum diameter of 4.5" (11.4 cm).

Locating and Marking Accessories

7000031432

3M™ Coupler Cable
For use with any Dynatel Transmitter, Receiver, or Coupler: 12' (3.7 m) in length.

7000006221

3M™ Dynatel™ Locator Coupler Accessory Kit
Contains a 4001 4.5" (11.4 cm) 3M Dyna-coupler and a 3M Coupler Cable 9011 with a case that can be attached to the transmitter.

7000058326

3M™ 3" (7.6 cm) Cable Locator Coupler Accessory Kit
Contains a 3001 3" (7.6 cm) Dyna-coupler and a Coupler Cable 9011 with a case that can be attached to the transmitter.

7000006166

3M™ Soft Carrying Bag
Carrying bag for the 2200M/2500/7000 series locators.

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product in accordance with all applicable instructions and with appropriate safety equipment, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement or repair of the 3M product or refund of the purchase price. Warranty claims must be made within one (1) year from the date of 3M's shipment.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by applicable law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.

Disclaimer: 3M industrial and occupational products are intended, labeled, and packaged for sale to trained industrial and occupational customers for workplace use. Unless specifically stated otherwise on the applicable product packaging or literature, these products are not intended, labeled, or packaged for sale to or use by consumers (e.g., for home, personal, primary or secondary school, recreational/sporting, or other uses not described in the applicable product packaging or literature), and must be selected and used in compliance with applicable health and safety regulations and standards (e.g., U.S. OSHA, ANSI), as well as all product literature, user instructions, warnings, and limitations, and the user must take any action required under any recall, field action or other product use notice. Misuse of 3M industrial and occupational products may result in injury, sickness, or death. For help with product selection and use, consult your on-site safety professional, industrial hygienist, or other subject matter expert. For additional product information, visit www.3M.com.
